DISCLOSURE OF RESPONSIBILITIES OF THE BOARD OF MANAGEMENT FOR FINANCIAL STATEMENTS

HOP NHAT JOINT STOCK COMPANY

Van Non Hamlet, Luc Son Commune, Bac Ninh Province, Vietnam

The Board of Management of the Company is responsible for preparation and presentation of financial statements, which give a true and fair view of the Company's financial position, operations results and its cash flow during the period

In preparing the financial statements, Board of Management is required to:

- Develop and maintain internal controls that the Board of Management and the Board of Directors of the Company determine are necessary to ensure that the preparation and presentation of the Financial Statements are free from material errors due to fraud or misrepresentation
- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, material misstatements (if any) that have been disclosed and explained in the financial statements;;
- Prepare financial statements on going concern basis unless it is inappropriate to presume that the Company will continue in business;.

Board of Management is responsible for ensuring that accounting records are kept adequately to give a fair and true view of the financial position of the Company at any time and to ensure that the accompanying financial statements of the Company were prepared in accordance with current regulations of the States. Board of Management is also responsible for safeguarding the Company's assets and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Management of the Company commits that financial statements, which give a true and fair view of the Company's financial position as at March 31,2026 as well as its operations results and its cash flow for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and relevant legal regulations on preparation and presentation of Financial Statements.

Bac Ninh, April 20, 2026

On behalf of Board of Management

General Director

NOTES TO THE FINANCIAL STATEMENTS
For the first Quarter March 31, 2026

(These notes are an integral part of and should be read in conjunction with the Financial Statements)

1. CHARACTERISTICS OF THE COMPANY'S OPERATIONS

Structure of ownership

Hop Nhat Joint Stock Company is a joint stock company established under Business Registration Certificate No. 2400379403, initially issued on 11/07/2007, and amended for the 16th time on 28/11/2022 by the Department of Planning and Investment of Bac Giang Province.

The Company's head office address: Van Non Hamlet, Luc Son Commune, Bac Ninh Province, Vietnam.

The Company's charter capital, according to the 14th amended business registration, is VND 1,179,000,000,000 (One trillion one hundred seventy-nine billion Vietnamese dong).

The number of employees as of March 31, 2026 is: 339 people

Business activities

The Company's principal business activities are:

- Mining and collection of hard coal;
- Coal trading.

2. APPLICABLE ACCOUNTING SYSTEM AND ACCOUNTING STANDARDS

2.1 Accounting period and accounting currency

The Company's fiscal year starts on January 01 and ends on December 31 of the calendar year.

The accounting currency is Vietnam dong (VND).

2.2 Applicable accounting system and accounting standards

Applicable accounting system

The Company applies the Vietnamese Corporate Accounting System promulgated together with Circular 99/2025/TT-BTC dated October 27, 2025 of the Ministry of Finance

Declaration on compliance with Accounting Standards and Accounting System

The Company complies with the Vietnamese Accounting Standards and the guidelines issued by the State. The financial statements have been prepared and presented in accordance with the provisions of the respective standards, guidance circulars, and the currently applicable accounting system.

2.3 Financial Instruments

Initial recognition

Financial assets

The Company's financial assets include cash and cash equivalents, trade receivables and other receivables, loans, short-term and long-term investments. At the initial recognition date, financial assets are measured at purchase price/issuance cost plus any directly attributable transaction costs to the issuance or acquisition of the financial asset.

Financial liabilities

The Company's financial liabilities include loans, payables to sellers and other payables, and accrued expenses. At initial recognition, financial liabilities are measured at the issuance price plus any directly related costs incurred from issuing the financial liabilities.

Value after initial recognition

Currently, there is no regulation on revaluation of financial instruments after initial recognition.

2.4 Foreign Currency Transactions

Foreign currency transactions during the fiscal year are converted into Vietnamese Dong at the actual exchange rate on the transaction date.

The actual exchange rate is determined as follows:

- For buying and selling foreign currencies: the rate specified in the foreign exchange purchase or sale contract between the Company and the commercial bank;
- For capital contributions: the buying rate of the bank where the Company maintains its account on the capital contribution date;
- For receiving capital contributions: the buying rate of the bank where the Company maintains its account to receive the investor's capital contribution on the contribution date;
- For recording receivables: the buying rate of the commercial bank designated by the Company for the customer's payment at the time of transaction;
- For recording payables: the selling rate of the commercial bank where the Company anticipates the transaction at the time of the transaction;
- For acquiring assets or making immediate payments in foreign currency: the buying rate of the commercial bank used by the Company for the payment.

The actual exchange rate used for re-evaluating monetary items denominated in foreign currency at the time of preparing the Financial Statements is as follows:

- For items classified as assets: the buying exchange rate for foreign currency;
- For foreign currency deposits: the buying rate of the bank where the Company maintains its foreign currency account;
- For items classified as liabilities: the selling exchange rate of the commercial bank with which the Company frequently have transactions.

All realized exchange rate differences arising during the period and unrealized differences from re-evaluating monetary balances in foreign currency at the end of the period are accounted for in the results of operations for the accounting period.

2.5 Cash and Cash Equivalents

Cash includes cash on hand, demand deposits at banks, and monetary gold used as a store of value excluding gold classified as inventory for use as raw materials or goods for sale.

Cash equivalents are short-term investments with maturities of no more than three months, high liquidity, the ability to convert easily into a known amount of cash, and minimal risk of changes in value.

2.6 Financial Investments

Held-to-maturity investments include: term bank deposits (including promissory notes and deposit certificates), bonds, and preferred shares where the issuer is obligated to repurchase them at a specific future date, and including loans held to maturity to earn periodic interest and other held-to-maturity investments.

Provision for impairment of investments is made at year-end as follows:

- For held-to-maturity investments: based on the recoverability to establish provisions for doubtful debts in accordance with legal regulations.

2.7 Receivables

Receivables are presented in the financial statements are stated at cost of receivables from customers and other receivables after deducting provisions for doubtful debts.

Provisions for doubtful debts are made for receivables overdue by six months or more, or receivables that are unlikely to be collected due to liquidation, bankruptcy, or similar difficulties faced by the debtor.

2.8 Inventories

Inventories are recorded at cost. If the net realizable value is lower than the cost, inventories are recorded at the net realizable value. Inventory costs include purchase costs, processing costs, and other directly related costs incurred to bring the inventory to its current location and condition.

Inventory value is determined using the weighted average method.

Inventories are accounted for using the perpetual method.

Method for determining the value of work-in-progress inventory at the end of the period:

Work-in-progress costs include the main raw material costs for each type of unfinished product.

Provision for inventory devaluation is made at the end of the period, based on the difference between the cost and the net realizable value of the inventory.

2.9 Fixed assets, Finance lease fixed assets and Investment Properties

Implemented in accordance with Circular 45/2013/TT-BTC dated 25/04/2013 and Circular 147/2016/TT-BTC, 30/TT/2025/TT -BTC amending certain provisions of Circular 45 issued by the Ministry of Finance, guiding the management, use, and depreciation of fixed assets. Tangible and intangible fixed assets are recorded at historical cost. During use, tangible and intangible fixed assets are recorded at original cost, accumulated depreciation, and carrying value. Depreciation is calculated using the straight-line method over the estimated useful lives as follows:

- Buildings, structures	06-25 years
- Machinery and equipment	03-12 years
- Means of transportation	05-08 years
- Office equipment	05-07 years

2.10 Construction in Progress

Construction in progress includes fixed assets being purchased and constructed but not yet completed as of the end of the financial accounting period and is recognized at historical cost. This cost includes expenses related to construction, installation of machinery and equipment, and other direct costs. Construction in progress is only depreciated when these assets are completed and put into use.

2.11 Prepaid Expenses

Costs already incurred related to the operating activities of multiple accounting periods are accounted for as prepaid expenses to be gradually allocated to operating activities in subsequent accounting periods.

The calculation and allocation of long-term prepaid expenses to production and business costs of each accounting period are based on the nature and extent of each type of expense to select appropriate allocation methods and criteria. Prepaid expenses are allocated into production and business costs using the straight-line method.

Goodwill arising from the equitization of state-owned enterprises is allocated over a maximum period of 3 years.

2.12 Liabilities

Liabilities are monitored according to due dates, payees, currency, and other factors as required by the Company's management.

2.13 Loans and Finance Lease Liabilities

The value of finance lease liabilities is the total amount payable, calculated as the present value of the minimum lease payments or the fair value of the leased asset.

Loans and finance lease liabilities are tracked by lender, individual loan agreements, and repayment terms. For loans and liabilities in foreign currencies, detailed monitoring is performed in the original currency.

2.14 Borrowing Costs

Borrowing costs are recognized as expenses in the production and business operations of the period in which they are incurred, except for borrowing costs directly related to the investment in construction or production of qualifying assets, which are included in the cost of those assets (capitalized) when the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing Costs" are met. Additionally, for specific loans used to finance the construction of fixed assets or investment properties, borrowing costs are capitalized even if the construction period is less than 12 months.

For general borrowings, part of which is used for the purpose of investing in the construction or production of a qualifying asset, the amount of borrowing costs eligible for capitalization in each accounting period is determined by applying a capitalization rate to the weighted average accumulated expenditures on the investment in the construction or production of that asset. The capitalization rate is calculated based on the weighted average interest rate of outstanding loans during the period, excluding specific loans used exclusively for a particular qualifying asset.

2.15 Accrued expenses

Accrued expenses for goods or services received from suppliers or provided to customers during the reporting period but not yet paid are recognized as production and business expenses of the reporting period.

The recognition of accrued expenses in production and business costs is carried out in accordance with the matching concept between revenue and expenses incurred in the period. Accrued expenses are settled based on the actual costs incurred. the difference between the pre-accrued amount and the actual costs is reversed.

2.16 Owner's equity

The owner's equity is recognized based on the actual capital contributed by the owner.

Other capital under Owner's equity reflects the business capital formed from additions from business result, or donations, gifts, grants, or asset revaluations (if permitted to adjust the owner's capital contribution).

Retained earnings reflect the company's business results (profit or loss) after corporate income tax and the situation of profit distribution or dealing with the loss of the Company. In cases where dividends or profits are paid to owners exceeding the amount of retained earnings, this is recognized as a reduction in contributed capital. Retained earnings may be distributed to investors based on their capital contribution ratios, after approval by the General Meeting of Shareholders/Board of Directors and after setting up funds in accordance with the Company's Charter and Vietnamese law.

2.17 Revenue

Revenue from sale of goods

- Revenue from sale of goods is recognized when all of the following conditions are satisfied:
- The significant risks and rewards associated with the ownership of the goods have been transferred to the buyer;
- The Company no longer retains right of manage the goods as if it were the owner or retain right of control over the goods;
- Revenue can be reliably measured;
- The Company has received or will receive economic benefits from the sale transaction;
- The Company has received or will receive economic benefits from the sale transaction.

Revenue from rendering of services

- Revenue from rendering of services is recognized when all of the following conditions are satisfied:
- Revenue can be reliably measured;
- It is probable that economic benefits will be received from the service transaction;
- The stage of completion of the service at the Balance Sheet date can be reliably measured;
- The costs incurred for the transaction and the costs to complete the transaction can be reliably measured

The stage of completion of the service is determined using the percentage-of-completion method

2.18 Cost of Goods Sold

Cost of goods sold for the year is recognized in accordance with the revenue generated during the year and ensures compliance with the prudence concept. Cases of material and goods losses exceeding allowable limits, abnormal excess costs, and inventory losses after deducting the responsibility of related groups or individuals, etc. are fully and promptly recognized in the Cost of goods sold for the year.

2.19 Financial Expense

The expenses recognized as financial expenses include:

- Expenses or losses related to financial investment activities;
- Borrowing costs;
- Losses on short-term securities transfers, expenses from securities sales transactions;
- Provision for impairment of trading securities, provision for investment losses in other entities, losses arising from foreign currency sales, foreign exchange losses, etc.

The above items are recognized at the total amount incurred during the period, without offsetting against financial income.

2.20 Corporate Income Tax

The company is subject to a corporate income tax rate of 20% on production and business activities with taxable corporate income for the end of first Quarter on March 31, 2026.

2.21 Related parties

Parties are considered related if they have the ability to control or significantly influence the other party's decisions regarding financial and operating policies. The related parties of the Company include:

- Enterprises directly or indirectly or through one or more intermediaries, controlling the Company or being controlled by the Company, or under common control with the Company, including parent companies, subsidiaries, and associates;
- Individuals who directly or indirectly hold voting rights in the Company that significantly influence the Company, key management personnel of the Company, and close family members of these individuals;
- Enterprises controlled directly or indirectly by the individuals mentioned above, who hold a significant portion of the voting rights or have a significant influence over the enterprise;
- When considering the relationships of related parties, the nature of the relationship should be considered, not just the legal form of these relationships.

2.22 Department Information

The Company's primary business activities are the production and trading of coal, while other operating activities account for a very small proportion of the Company's operations. Therefore, the information presented in the Balance Sheet on 31/03/2026 and the revenue and expenses presented in the Income Statement for the end of first Quarter March 31, 2026 primarily relate to the business activities mentioned above.

The Company operates solely within Vietnam; therefore, there are no geographical departments other than Vietnam. Consequently, the Company does not prepare department reporting by business line or by geographical area.

No: 08/2026/CV-AAH

V/v: Explanation of changes in profit after tax of 10% or more in the figures for the first quarter of 2026 compared to the same period of 2025.

**To: - STATE SECURITIES COMMISSION
- HANOI STOCK EXCHANGE**

The Continued Joint Stock Company respectfully extends its greetings to the esteemed State Securities Commission and the esteemed Hanoi Stock Exchange.

Hop Nhat Stock Company would like to provide an explanation of changes in corporate income tax profit after tax of 10% or more in the Income Statement for the first quarter of 2026 compared to the same period in 2025, as follows:

- Net profit after tax for of the firstquarter 2025: 13,208,997,589 VND
- Net profit after tax for of the first quarter 2026: 2,479,394,402 VND

The reasons for the difference are as follows:

No	Content	Quarter I of 2025 (VND)	Quarter I of 2026 (VND)	Difference	
				Value	Percentage
1	Revenue from sale of goods and rendering of services	203,088,984,450	197,273,799,398	(5,815,185,052)	-2.86%
2	Cost of goods sold	181,279,390,023	190,319,644,077	9,040,254,054	4.99%
3	Financial income	99,575,777	1,310,936,700	1,211,360,923	1216.52%
4	Financial expenses	749,906,726	970,798,399	220,891,673	29.46%
5	Selling expenses	865,101,539	1,270,327,981	405,226,442	46.84%
6	General and administrative expenses	3,712,044,232	2,924,722,638	(787,321,594)	-21.21%
7	Profit from Operating Activities	16,582,117,707	3,099,243,003	(13,482,874,704)	-81.31%
8	Total profit before tax	16,525,421,130	3,099,243,003	(13,426,178,127)	-81.25%

- Revenue from sales and service provision decreased by VND 5.9 billion (2.86%) due to a sharp drop in coal production output in February; workforce productivity before and after the extended Lunar New Year holiday was lower than in the previous year.

- Cost of goods sold increased by VND 9 billion (4.99%) because February saw an abnormally low production volume while certain production cost factors still had to be maintained, driving up production costs. In addition, the decrease in output led to a portion of fixed asset depreciation expenses being directly recorded into cost of goods sold, making it higher than usual.

- Financial income increased by VND 1.2 billion thanks to effective utilization of financial resources in operations.

- Financial expenses increased by VND 0.2 billion (29.46%) due to an increase of VND 10 billion in maintained credit limits from the second quarter of 2025.

- Selling expenses increased due to general fluctuations in fuel prices.

- Administrative expenses decreased as cost-saving measures were implemented during the difficult period, specifically in management personnel expenses, outsourced service costs, and other cash expenses.

=> As a result, profit from operating activities decreased by VND 13 billion, equivalent to 81.31% compared to the same period.

=> Total accounting profit before tax decreased by VND 13 billion, equivalent to 81.25% year-on-year.

These factors led to a decrease in total accounting profit after tax of VND 10.7 billion compared to the same period, equivalent to 81.23%.

Continued Joint Stock Company would like to report for the attention of the esteemed Committee and Exchange.

Sincerely thank you!
